Professional Summary

Full-Stack Developer with over **4 years of experience** in building scalable web applications. Specialized in **modern client-server architectures** using **React, TypeScript, Laravel, and FastAPI**. Experienced in creating **high-performance e-commerce platforms**, user authentication systems, payment integration, and analytics. Skilled in **component-based frontend development, RESTful APIs, database design, and third-party service integrations**. Strong in **performance optimization, responsive design, and production-ready deployments**.

Professional Experience

Full-Stack Web Developer	2024 – Present
- Developed scalable full-stack web applications for international clients using React, Node.js, and Laravel. - Built secure authentication systems and integrated third-party APIs. - Developed and maintained e-commerce platforms, including product catalogs, order management, and payment systems. - Involved in all development stages: architecture design, development, testing, performance optimization, and deployment. - Delivered clean, maintainable code, using Git and Docker, and ensured high-performing, responsive web applications.	
Frontend / Web Developer	2021 – 2024
- Developed responsive websites and web apps with HTML5, CSS3, JavaScript, Vue.js. - Collaborated with designers to improve UI/UX. - Optimized site performance and ensured cross-browser compatibility. - Developed backend functionality using Node.js and PHP. - Integrated APIs for content management and e-commerce features. - Managed databases with MySQL for users and products. - Participated in agile workflows, including sprint planning, task management, and code reviews.	

Education

Bachelor of Engineering in Software Engineering, Гуанчжоуский университет Основные дисциплины:	2017 – 2021 Гуанчжоу, Китай
• разработка веб-приложений • frontend и backend программирование • UI/UX дизайн • базы данных	

- облачные вычисления

Technical Skills

Frontend

React (Hooks, component architecture),
TypeScript, Vue.js, Angular, HTML5, CSS3,
Tailwind, JavaScript, jQuery

Databases & Cloud

MySQL, PostgreSQL, MongoDB, SQLite,
database design & optimization

Backend

Node.js, PHP 7.4–8.1, Laravel, FastAPI, REST
API, Shopify integration

DevOps & Tools

Git, Docker, CI/CD

Languages

English — B2 (Intermediate / Upper-Intermediate)
